corporate tax

Tax legislation is becoming increasingly complex and tax authorities increasingly vigilant. Having advisers who understand the issues is essential, whatever the jurisdiction or industry in which your organisation operates. At Blake Laphorn we can deliver a flexible, prompt and cost-effective service to meet your business objectives.

With our colleagues in other departments, we can give co-ordinated advice on all tax issues. These include the corporate, banking and finance, technology, real estate and transport departments.

Chambers UK, A Client's Guide to the Legal Profession 2010 states:

"This leading corporate tax department has a strong showing across its Oxford, Portsmouth and Winchester offices. The lawyers offer expertise on a broad range of taxation matters relating to cross-border transactions, M&A, reorganisations, commercial property transactions, employee share schemes and environmental taxation issues. Notable work includes advising the shareholders of Pinpoint Global on the sale of their shares to Epiq Systems. The group also handles indirect tax concerns and recently represented various property development businesses on the VAT aspects of a development project."
